CAREER OBJECTIVE

Computer Science Engineering student with hands-on experience in web and application development and working knowledge of Java. Familiar with object-oriented programming, modern web technologies. Passionate about building real-world projects, participating in hackathons, and solving problems through technology. Looking for a Software Developer Engineer role to improve my skills and contribute to scalable software solutions.

TECHNCAL SKILLS

- | | | | |
|--------|---------------|------------|----------------------|
| • Java | • React.js | • MongoDB | • Git & GitHub |
| • HTML | • Spring Boot | • MySQL | • REST APIs |
| • CSS | • JavaScript | • Firebase | • Prompt Engineering |

EDUCATION

- | | |
|---|----------------------------|
| Bachelor of Engineering in Computer Science and Engineering
Sathyabama Institute of Science and Technology, Chennai
CGPA – 8.48 / 10 | Aug 2023 - Present |
| HSC
Alwin Memorial Public School, CBSE
Percentage – 73.2 | Jun 2022 - May 2023 |
| SSLC
MAV Vidyashram, CBSE
Percentage – 67.3 | Jun 2020 - Aug 2021 |

INTERNSHIPS

- | | |
|--|----------------------------|
| Web Development Intern – AICL Learning Simplified
• Built responsive frontend modules using React.js and JavaScript, designed user-friendly interfaces, participated in testing and deployment, and gained practical experience in full stack development. | Jun 2024 – Jul 2024 |
| AI & Prompt Engineering Intern – Vault of Codes by AICTE
• Worked on AI-based workflows and prompt engineering concepts, developed structured prompts, collaborated on real-world AI implementation tasks, and improved understanding of NLP and AI-driven applications. | Jun 2025 – Jul 2025 |
| Web Development Intern – Tamizhan Skills by AICTE
• Developed responsive web application features, assisted in frontend and backend integration, worked on debugging and UI improvements, and collaborated with developers on project deliverables | Jun 2025 - Jul 2025 |

PROJECTS

ReMind

Jan 2025- Present

Built a wearable IoT device to help Alzheimer's patients with tracking, safety alerts, and caregiver support via a connected mobile app.

Lost & Found Application

Feb 2026

Developed a secure web-based system for reporting and recovering lost items with item tracking and verification workflows using full stack technologies.

Peer-to-Peer Learning Platform

Jan 2026- Feb 2026

Built a real-time collaborative learning platform using WebSockets for live peer interaction and seamless communication between users.

GPS Tracking System for Women Safety

Feb 2025 - Apr 2025

Developed a GPS emergency alert system with real-time location sharing and Telegram integration for rapid response and safety communication.

ACHIEVEMENTS

Cognizant Technoverse Hackathon 2026

March 2026 - April 2026

Selected for Round 2 from the college-level Top 8 teams, cleared the main PPT round, and advanced till the Agent Builder Round in Cognizant Technoverse Hackathon 2026.

3rd Place – CodeBeat Hackathon

March 2025

Won 3rd place in a national-level hackathon in the Web Development domain conducted by BITS Pilani Hyderabad.

2nd Prize – Build Beyond the Box Hackathon 2025

September 2025

Awarded 2nd prize for developing “EcoRace,” an AI-powered campus energy saver web application.

3rd Place – IDEATHON 2K26-V1 2026

January 2026

Secured 3rd place in IDEATHON 2K26-V1 for developing a Peer-to-Peer Learning Platform for students, organized by the Department of Computer Science and Engineering, Sathyabama Institute of Science and Technology.

CO-CURRICULAR

Adopt-a-School Initiative

Sep 2024

Participated in community service activities including donation drives and educational support initiatives.

Tech-Synergy FDP Coordinator

Sep 2024 – Oct 2024

Coordinated a 5-day Faculty Development Programme on Cloud-Driven AI & IoT Solutions attended by 150+ participants.

Leadership & Co-Curricular Activities

Ongoing

Coordinated and supported technical teams for multiple events, hackathons, startup fests, conferences, and Faculty Development Programmes
